

Foundations in Acute Oncology

Cwrs Sylfeini mewn Oncoleg Acíwt

Academi Oncoleg Felindre
Velindre Oncology Academy

 Gwasanaeth Canser Felindre / Velindre Cancer Service

Course Overview

This course offers healthcare professionals involved in managing patients with acute oncology indications a comprehensive understanding of the acute events arising from cancer and its treatments. Participants will gain insights into the causes, pathways, and practical management of these events while exploring their impact on patients' lives and care outcomes.

1 Day

Why complete this course?

This course will equip professionals with in-depth knowledge and practical skills to enhance their ability to address acute oncology challenges, optimise care pathways, and improve patient outcomes.

Who should complete this course?

This course is specifically designed for registered health professionals involved in the care of individuals with acute oncology indications, regardless of the healthcare setting. It is also open to anyone with a general interest in acute oncology, providing valuable insights and knowledge applicable across various roles and environments.

Course Delivery Method

This course will be delivered as an interactive workshop. Our workshops involve a variety of activities, including case studies, group discussions, polls and role play.

You will be able to attend the course virtually or in person.

CPD

This course will contribute towards your CPD hours/points.
